

Southwood Psychiatric Hospital

WNA Engineering provided full MEP/FP for a new, three story, 66,371 square feet facility for Southwood Psychiatric Hospital. Located near Pittsburgh, Southwood provides inpatient and residential treatment for children and teens of all genders who are struggling with a mental health disorder.

WNA worked with IKM Architecture and Warfel Construction on the project, which includes 108 beds, electrical/mechanical rooms, kitchen, administrative offices, laundry, storage rooms, nurses stations, staff lounge/lockers, conference rooms and other supporting spaces.

Project Area 66,371 Sq. Ft.	Owner Southwood Psychiatric Hospital	Location Pittsburgh, PA
