## AEO – NYC Design Center & Office

WNA Engineering provided full MEP/FP design services for the New York City Design Center and Office of long-standing client American Eagle Outfitters. The 33,000 square feet of office, retail and event space is located on the top two floors of the historic Tiffany & Co. building in Manhattan. The WNA team was also responsible for IT/data coordination and providing a new fire protection system for the entire building.
